THE purpose of this Sale is to introduce an epochmaking invention, great in importance and far-reaching in effect—a genuine Corset achievement.

The new NEMO "AUTO-MASSAGE" SELF-REDUCING CORSET not only reduces the figure by a comfortable readjustment of the flesh, but actually reduces the flesh by scientific massage. This is accomplished by a new adjustment of the Self-Reducing Straps in combination with other newly-patented devices.

> This is not a new theory, but simply the successful application of a scientific fact, well known to every physician and hygienist—that the persistent movement of the body against steady pressure will not only prevent the formation of fat, but will cause fatty tissue to be re-absorbed and removed when already formed. It is a perfect substitute for hand-manipulation by a skillful masseuse.

The truth of our original claim that the Nemo Self-Reducing Corset positively reduces the abdomen has been proved beyond question. Millions of women who have worn and still wear these corsets are convinced of this.

The new NEMO "AUTO-MASSAGE" SELF-REDUCING Corset represents the highest perfection of the original Nemo Self-Reducing Idea; but it goes further-it causes the absorption of fat, thereby actually decreasing the deposit of fatty tissue and materially reducing both the weight and size of the figure in a comparatively short time.

Detailed description of this new device and its hygienic action is impossible in this space; but the picture shows its inevitable effect -symmetrical figure-reduction never before possible, with the highest degree of comfort ever enjoyed by women of full form. Don't Fail to See This Wonderful New Corset This Week
